

REMARKS

Applicants present the present Request for Continued Examination so that the Office may consider references whose submission is provided pursuant to comply with recent decisions from the Federal Circuit. *McKesson Information Sys. v. Bridge Medical Inc.*, 487 F.3d 897, 82 USPQ2d 1965 (Fed. Cir. 2007).

Applicants acknowledge and accept the Examiner's amendments set forth in the Notice of Allowance. However, during a review of the claims, Applicants discovered an antecedent basis issue in claim 7. Applicants amend claim 7 to correct the error. No new matter is added.

CONCLUSION

Applicants maintain that the claims remain patentable as indicated in the Notice of Allowance mailed November 7, 2008.

Any changes to the claims in this amendment, which have not been specifically noted to overcome a rejection based upon the prior art, should be considered to have been made for a purpose unrelated to patentability, and no estoppel should be deemed to attach thereto.

The Examiner is invited to contact the undersigned attorney at the telephone number listed below if such a call would in any way facilitate allowance of this application.

The Commissioner is hereby authorized to charge any fees, which may be required, or credit any overpayment, to Deposit Account Number 50-2469.

Respectfully submitted,
